That this meeting views with regret the acceptance by the Senate of the University of London of the late Supplemental Charter, enabling them to confer Degrees without the guarantee of that sufficient and general course of education considered to be implied by an University Degree.

Professor Foster, LL.D., seconded the motion.

Thomas Gibson, Esq., moved the previous question.

Mr. Amory seconded the motion.

Question on Mr. Gibson's Motion put and carried.

HENRY WARBURTON, *Chairman.*

On the motion of Thomas Gibson, Esq.,

RESOLVED UNANIMOUSLY,—That the thanks of the College be given to Mr. Warburton for his kindness in presiding at this Meeting, and for his conduct in the Chair.

REPORT.

In the Session 1848–49 the number of Students was as follows:—In the Faculty of Medicine 284, in the Faculty of Arts 281, in the Junior School 285, total 850. Compared with the preceding Session, the numbers were in the Faculty of Medicine less by 31; in the Faculty of Arts more by 29; in the Junior School less by 25. In the Patriot Fund Classes for Schoolmasters there were 47 Students; in the Birkbeck Summer Course of Practical Chemistry 6. In the Junior School the highest number in any one term was 251. The amount of Fees was 13,402*l.* 2*s.*; viz. £4964*l.* 12*s.* for the Medical Faculty, 4108*l.* for the Faculty of Arts, 4329*l.* 10*s.* for the Junior School. The share of the Professors and Masters, besides annual augmentations of 100*l.* to the Professor of Surgery and 150*l.* to the Chair of Natural Philosophy and Astronomy, and 90*l.* dividends of the Patriot Fund, was 9106*l.* 10*s.* 3*d.*: the College portion was 2951*l.* 13*s.* 9*d.* The sum of 1343*l.* 18*s.* was received from Students for attendance on Hospital Practice, and contributed towards the support of the Charity.

The entries for the current Session, up to this period, are 236 Medical Students, of whom 50 entered for the first time at the commencement of the Session: last year, at the corresponding period, the numbers were respectively 261 and 57. The new entries to Hospital Practice are 44: last year they were 48. To the Classes of the Faculty of Arts the number, exclusive of 47 to the Schoolmasters' Classes, entered to this day are 197; the new Students are 92: last year the numbers were respectively 206 and 104. The School of Analytical Chemistry in the Birkbeck Laboratory has again increased, and now contains 27 Students.

The number of boys in the Junior School this term is 236; at the corresponding period of last year there were 253: as in previous years, the former Pupils of the School have acquitted themselves creditably at the University and College Examinations. Among these has to be again mentioned Mr. Edward Routh, on whom the University of London Mathematical Scholarship was conferred. At the College Examination at the end of last Session the Prizes and Certificates awarded to them exceeded those obtained in the most successful of preceding years: they were 40 among 15 Students.

The number of University College Students who took Degrees at the University of London was as follows:—LL.D. 1, there being none from any other College; M.D. 5, of a total of 8 from 3 schools; M.A. 5, of a total of 7 from 3 Colleges; B.L. 2, there being none from any other school; B.M. 5, of a total of 13 from 7 schools; B.A. 27, of a total of 53 from 13 schools: in all 45, of a total of 84 from 18 Institutions. Of Undergraduates in Medicine, of a total of 25 from 8 schools, 6 were from University College. At the Matriculation Examination there passed 167 Students, of whom 33 proceeded from private tuition: of the remaining 134 from 43 Schools, 28 were from University College, of whom 3 were from the Junior School.

The Prizes awarded by the Senate of the University at the Examinations of the past year to Students of this College were:—For the Degree of M.A. the Gold Medal of the value of 20*l.* to Mr. Bunnell Lewis, as the first in Classics, and a like Medal to Mr. Richard Holt Hutton, as the first in Logic, Moral Philosophy, Philosophy of the Mind, Political Philosophy and Political Economy: for the Degree of B.L. the University Law Scholarship to Mr. Henry Matthews: for the Degree of B.M. a Gold Medal and the second place in Honours, for his Examination in Physiology and Comparative Anatomy, and a Gold Medal and a first place in Honours, for his Examination in Surgery, to Mr. James Morris; and a Gold Medal and a first place in Honours, for his Examination in Medicine, to Mr. Sherard Freeman Statham. For the B.A. Degree, the University Scholarship in Mathematics to Mr. Edward John Routh, and the University Scholarship in Classics to Mr. Alfred Wills. The names and places of other Students who took Degrees with Honours, as well as of those who obtained Prizes and Certificates of Honour at the College Examinations, will be found in the tables in the Appendix.

Of Undergraduates at the First Examination for the Degree of B.M. a Gold Medal was obtained by Mr. Henry Thompson, for his Examination in Anatomy and Physiology. At the Matriculation Examination a Book Prize was awarded

to Mr. John Zachariah Lawrence, for his Examination in Botany, and to Mr. Edward Fry, for his Examination in Chemistry.

It is satisfactory, on referring to a summary of Scholarships awarded with Honours, for the B.A. Degree, since the institution of the University, to find that all of them,—being for Mathematics 9, *i.e.* one every year; for Classics 5,—have been gained by Students of this College.

The Council observe, that by a Supplemental Charter, granted in the course of the year, the powers of the University in granting Degrees have been extended, and that the Degrees in Arts and Laws may be conferred after Examination, and on satisfying the Authorities of the University that they have completed a course of instruction required by the regulations of the University, on Candidates from the Universities of Oxford and Cambridge and their several Colleges, and from the Universities of Durham, Edinburgh, Glasgow, and St. Andrews, the King's College of Aberdeen, the Marischal College of Aberdeen, and the University of Dublin.

The College Flaherty Scholarship in Classics for this year has been awarded to Mr. Alfred Wills; the Longridge Prize for General Proficiency in the Medical Sciences to Mr. Henry Briggs. The First Examination for the Andrews Scholarships took place in October, but no Scholarships were awarded.

Dr. Deakin Heaton, Mr. Walter Bagehot, and Mr. Henry Matthews, selected from Students who have graduated with Honours at the University, have been added to the list of Fellows of the College.

LEGACIES AND DONATIONS.

The Council have been lately informed by the Executors of Dr. Holme, that the delay in closing their accounts has been occasioned by an unexpected difficulty in reference to a portion of the Stock in the testator's name as administrator of the former owner, in consequence of which it became necessary to take out renewed letters of administration, and for that purpose to prove that Dr. Holme was next of kin to the former testator. The Executors, in their letter of the 25th of January, add, that they trust "that nothing will now interfere with an immediate completion of the Executors' duty."

The valuable library has been transmitted entire to the College, and the entering the books in the Catalogue, and the arrangements for disposing them in their respective departments, are now in progress.

In the month of November the Council received notice of a legacy of 100*l.*, free of duty, by Mr. Wilkins of Mackworth, Derbyshire, for the general purposes of the College.

The College is again indebted to Miss M. Denman for a gift of works by her late brother-in-law, Mr. Flaxman. The Council at their Session on 6th of November received from her a letter announcing her satisfaction with the architectural finish of the Flaxman Hall, and the presentation of nine other masterpieces of art.

Besides the works by Flaxman himself mentioned above and on former occasions, Miss Denman has contributed valuable additions to the collection of Casts for the use of the Drawing School of the College, by presenting several specimens of ancient art formerly belonging to Mr. Flaxman, and among them an excellent cast of the Apollo Belvidere. The same collection has been also enriched by the donation, from Sir Matthew White Ridley, Bart., of a very fine cast from the Laocoon group in the Vatican.

PROFESSORSHIPS.

The only vacancy which has occurred in the Faculty of Arts and Laws of the College during the last Session is that in the Professorship of Jurisprudence, occasioned by Her Majesty's having appointed Mr. Hargreave to be one of the Commissioners for the Sale of Encumbered Estates in Ireland. Charles James Foster, M.A. and LL.D. of the University of London, formerly a Student of this College, who had obtained the University Law Scholarship on taking the Degree of B.L., was chosen to succeed Mr. Hargreave.

A Course of Lectures on Mineralogy was given in the course of this Session by Mr. E. J. Chapman, and on his application the question of instituting a Professorship of Mineralogy is now under consideration by the Council.

In the Faculty of Medicine the following appointments have been made: Dr. Walshe to be Professor of Medicine, on the resignation of Dr. Williams; Dr. Parkes, Professor of Clinical Medicine, as successor to Dr. Walshe, with the office of Physician to the Hospital; Dr. Jenner to the Professorship of Pathological Anatomy, the duties of which chair Dr. Walshe had continued to discharge up to the close of last Session; Dr. A. B. Garrod to the Professorship of Materia Medica, vacant by the decease of Dr. A. T. Thomson; and Dr. W. B. Carpenter, Professor of Medical Jurisprudence, on which subject Dr. Thomson had for many years delivered the Annual Course of Lectures.

Dr. Garrod has also been appointed Physician to the Hospital, and Dr. Jenner and Dr. Hare have been appointed Assistant-Physicians, as successors to Dr. Parkes and Dr. Garrod. By the death of Dr. Thomson the College has to lament the loss of a Professor, who had been attached to it from its first institution. He was distinguished for abilities and extensive acquirements no less than for zeal and activity, and had rendered very efficient service. The College has also to regret the decease of Mr. Thomas Morton, Surgeon to the Hospital.

The new Library and Lecture-Rooms were opened at the commencement of the Session, and prove well-adapted for their purpose. The painting is reserved for the next long vacation. The Flaxman Hall has been some time ready for the works of sculpture; some of these have been affixed temporarily for the guidance of a Committee of Subscribers in considering their final arrangement.

FINANCES.

The Expenses of the establishment, exclusively of those for which special funds are appropriated, amounted to 11,142*l.* 8*s.* 11*d.*, of which 300*l.* was incurred for augmentation allowances to Professors, and 7076*l.* 4*s.* 10*d.* for building. The remaining 3766*l.* 4*s.* 1*d.* was mainly for ordinary expenses. The Receipts applicable for general purposes, including Mr. Dyson's Legacy of 100*l.*, were 3104*l.* 15*s.* 5*d.* The difference was provided for out of the balance at the Bankers at the close of the preceding year, and by the sale of invested funds, the produce of which was 6854*l.* 0*s.* 9*d.* Additions were made to special invested funds by the purchase of Stock with their respective surplus Dividends, as follows:—Andrews Fund, 198*l.* 14*s.* 9*d.* 3 per Cents Reduced: Holloway Fund, 50*l.* Consols: Ricardo Fund, 50*l.* 3¼ per Cents.

HOSPITAL.

The Council have spared no exertions to maintain the Hospital in a due state of efficiency under very difficult circumstances during the past year; and they have to acknowledge their obligations to many zealous friends of the College for an extraordinary degree of support. The Donations amounted to 3160*l.*; and it is satisfactory to observe that the Annual Subscriptions continued to increase, and reached the sum of 760*l.* The expense of the establishment for the year was 6200*l.*; an addition of 500*l.* to the debt was incurred. The following new Legacies were announced:—From John Curteis, Esq., free of duty, 500*l.*; Charles Filica, Esq., 250*l.*; Cuthbert Morris, Esq., about 300*l.*; Theophilus Norton, Esq. (a Reversionary bequest), 500*l.* The Legacies of Mr. Curteis and Mr. Filica were paid shortly after the deaths of the respective testators. Those of Mrs. Kennedy and Col. Purchas, formerly announced, are still due: 1100*l.* on account from the estate of Col. Purchas is expected to be paid immediately. Dr. Fellowes' Legacy of 300*l.* has been received, and, according to his directions, invested in the Funds, by the purchase of 322*l.* 19*s.* 3*d.* Consols.

The depressed state of the finances renders an appeal by means of a Festival indispensable. His Royal Highness the Duke of Cambridge has kindly consented to preside at a Public Dinner at the London Tavern on Thursday the 23rd of May. The friends of the College are earnestly entreated to lend their aid in supporting His Royal Highness, and in procuring a collection proportionate to the necessities of the Charity.

CHARLES C. ATKINSON,
Secretary to the Council.
